CAREER PROFILE

As a Front-end and Full Stack Developer, I bring a strong blend of technical expertise and creative problem-solving skills. I have successfully developed responsive websites across diverse industries, focusing on creating intuitive and user-friendly interfaces. I thrive in cross-functional team environments and am committed to delivering innovative digital solutions for clients. I hold a bachelor's degree in computer science.

SKILLS

Languages: English (Advanced), Swedish (Intermediate).

- **Frontend Development:** TypeScript, JavaScript, HTML, CSS, React.js, Next.js, Redux Toolkit, React-Query, React-router, Rest APIs, Axios, SCSS, Material UI, Tailwind CSS, Mantine, Ant Design.
- **Backend Development:** Node.js, Express.js
- **Familiar with:** Python, C#, Java
- **Database Management:** MongoDB.
- **DevOps**: Docker, Netlify, Bash.
- **Cloud Services:** AWS.
- **Other:** Figma, Adobe Creative (Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe Xd).

KEY PROJECTS

Kajutan Restaurant   **Sweden, Holmsund**
Full-stack developer, Project: Kajutan   *2024*

- Developed a comprehensive restaurant website with functionalities for admin sign-up, search, and comment features. Admins can perform CRUD operations on the menu and comments.
- Designed and implemented the project from scratch, including UI/UX design, workflow, folder structure, React Query configuration, and backend CRUD functions.
- **Tech Stack:** React.js, React Query, React Router Dom, Tailwind CSS, Node.js, Express, JWT, MongoDB.

Personal Projects

Full stack: Blog app with admin panel

Backend: Developed using Node.js and Express.js.

Frontend: Built with Next.js and React Query.

Features:
- **User Authentication**: Secure login system.
- **Admin Panel**: Manage blogs with CRUD operations.
- **Categories & Pagination**: Display and navigate blogs by categories.
- **Server-Side Search**: Efficient blog search functionality.
- **Like & Bookmark**: Users can like/bookmark posts.
- **Comment System**: Users can comment and reply to comments.
- **Comment Moderation**: Admin can manage comments.

Technologies Used:
- **Next.js**: Framework for server-side rendering.
- **Node.js**: Backend server for handling logic.
- **MongoDB**: Database for storing data.
- **Express.js**: Web framework for API handling.
- **JWT**: For user authentication.

Full stack: Job Portal Website   Frontend: Hotel Booking

Backend: Developed using Node.js and Express.js.

Frontend: Built with React.js and React Query.

User Roles:
  Job Seeker: Register, view job proposals, and apply for jobs.
  Employer: Register, post job proposals, and manage freelancer applications.
  Admin: Manage all users, create, edit, and delete project proposals.

Functionalities:
- User registration for job seekers and employers.
- Job seekers can view and apply for job proposals.
- Employers can accept or reject freelancer applications.
- Admin can manage users and project proposals.

Integrify Academy   **Finland, Helsinki**
Full-stack developer and Tech Lead, Projects: [Food blog](), [Mobile store]()   *2023*
- Developed a comprehensive restaurant website with functionalities for admin sign-up, search, and comment features. Admins can perform CRUD operations on the menu and comments.
- Designed and implemented the project from scratch, including UI/UX design, workflow, folder structure, React Query configuration, and backend CRUD functions.
- Tech Stack: React.js, React Query, React Router Dom, Tailwind CSS, Node.js, Express, JWT, MongoDB.

WORK EXPERIENCE

PegaheAftab   **Iran, Tehran (remote)**
Frontend Developer – Signum Framework   *02/2025 – Present*

- Designing components based on the Signum framework syntax.
- Developing user interfaces, including custom tables, toolbars, and necessary modules.
- Implementing state management and data handling using React and TypeScript.
- Collaborating with the backend team to integrate APIs and ensure seamless data flow.
- Conducting code reviews and providing feedback to improve code quality and maintainability.
- Participating in agile development processes, including sprint planning and retrospectives.
- Optimizing performance and scalability of the application by adhering to best practices.

Hantverkshjälpen AB   **Sweden, Stockholm (remote)**
Frontend Developer   *08/2024 – 11/2024*

- Contributed to the development of Time Flow, a comprehensive time management and productivity tool designed to streamline task tracking and project management.
- Utilized Next.js and TypeScript for building scalable and maintainable web applications, Tainwind Css.
- Coordinated daily tasks and project milestones using Jira, ensuring timely delivery and efficient workflow.
- Created dynamic and user-friendly registration forms with React Hook Form, enhancing user data collection and validation.
- Implemented responsive navigation menus and layouts to ensure a seamless user experience across various devices.
- Worked closely with backend developers and UI/UX designers to integrate APIs and design elements, fostering a collaborative and agile development environment.

Integrify Academy   **Finland, Helsinki (remote)**
FullStack Developer (trainee)   *11/2022 – 03/2023*
- Implemented 7+ websites, and landing pages from concept through deployment.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Assessed UX and UI designs for technical feasibility in Figma.
- Collaborated in Slack and GitHub with product team members to implement new feature developments.

Swedcon 18 AB   **Sweden, Växjö (remote)**
Frontend Developer (intern), Project: Online doctor appointment service (Web)   *08/2022 – 11/2022*
- The application allows users to book an appointment to visit a doctor remotely and have a video call to see a doctor to explain more practically about their disease. Stack: React.js, Next.js, Mantine, SCSS.
- Worked in a team group of 25 people via Discord, GitLab and GitHub, learned more from Senior developers.
- Maintained, optimized, troubleshooted, and improved the project by doing 10+ tasks.
- Implemented apps and landing pages from concept through deployment.
- Maintained graphic standards and branding throughout the product's interfaces.

EDUCATION & COURSE CERTIFICATIONS

- Master of Bioinformatics, University of Skövde (Skövde, Sweden), 2022-2023
- Bachelor of Science in Computer Science Payam Noor University (Bojnord, Iran), 2004 – 2009
